SERVICENOW SYSTEM ADMINISTRATOR · NAAN MUDHALVAN (SMARTBRIDGE)

Team Involvement in the Demonstration

Phase 8 · Project Demonstration

Deepak P (Team Lead) · Hemanthan B N · Ganesh A K · Irfan Rifayil Z

This document records each member's contribution to building the Script-Controlled ACL project and to the recorded demonstration. Responsibilities were split along the natural build dependencies (table, then roles, then ACLs, then data, then verification), with the Team Lead owning the instance and the security_admin elevation.

Contribution Matrix

Member	Contribution to the build	Contribution to the demonstration
Deepak P (Lead)	Owned PDI dev443713, performed security_admin elevation, authored the READ ACL gs.hasRole script, coordinated build order	Narrated the recording, drove the admin all-4-records proof and the ACL config walkthrough
Hemanthan B N	Created the u_institution_details table and all columns, defined the Branch choice field (ECE/EEE/CSE)	Presented the table schema and Branch field on screen
Ganesh A K	Created roles bb1, bb2, bb3, bb4 and the EEE User account holding all four roles	Showed the EEE User role assignment before the impersonation proof
Irfan Rifayil Z	Configured the four ACLs, set READ to Advanced with the Branch is EEE condition, removed the default u_institution_details_user role	Opened each ACL during the demo and explained read/create/write/delete mapping

Verified Outcomes Demonstrated by the Team

Persona	Roles	Records visible	Actions
EEE User	bb1-bb4	EEE001, EEE002 (2 of 2)	New visible; EEE001 editable with Update and Delete
Abel Tuter	none	Blocked	Security constraints prevent access to requested page
System Administrator	admin	All 4 records	Full access

Shared Responsibilities

- All members reviewed the final impersonation results together before recording.

- Documentation and the SmartInternz submission were assembled jointly, led by Irfan with sign-off from the Team Lead.
- Every configuration change was validated by test immediately, so no single member's work went unchecked.
